## Runabout Show Bumper Pull

This model is based on our popular Runabout design. Introduced 10 years ago, the economical Runabout has proven its safety, durability and flexibility for many applications. Doors, ramps, gates, latches, axles, lights are exactly the same as those used on our Deluxe Models. This show trailer version is an adaptation of our Low Profile Runabout Stock Trailer. We've equipped it with everything you need for a successful show. The low profile and wedge shaped nose contribute to better fuel economy. The standard floor plan is set up with 9 heavy duty pig gates forming 6 pens. All gates and hinge posts are removable. Pens may be individually adjusted from a 50/50 to 60/40 stall widths in seconds.
